CONTROL GONE FROM GOULD.

Vanderbilts Gaining Railroad Vantages.

Ecuador to Terminate Our Treaties.

Would Lose Union Pacific.

By Associated Press.
CHICAGO, Aug. 29.—A morning paper says: It is generally understood that Jay Gould has virtually relinquished control of the Union Pacific Railroad and that a majority of the stocks and bonds of the company have been placed in the hands of the banking firm of Drexel, Morgan & Company. The general opinion is that Drexel, Morgan & Company acquired control of the Union Pacific in the interest of the Vanderbilts. They are financial agents of the Vanderbilts and are also in control of the Chicago, Milwaukee & St. Paul. This indicates that a close alliance between the Union Pacific and the Northwestern and St. Paul roads is contemplated. The Vanderbilts have long been anxious to secure a foothold west of the Mississippi river and gain an independent outlet for their system of roads to the Pacific Coast, and it is not likely they will be content with the Union Pacific, but that they mean to acquire other important railway systems west of the Rocky mountains. A contest is said to be now in progress between the Vanderbilts, Chicago, Burlington & Quincy and the Atchison, Topeka & Santa Fe for the possession of the Denver & Rio Grande road, with the prospect that the Vanderbilts will carry off the plum. If the Vanderbilts succeed in getting the Rio Grande, it is believed their next move will be to secure control of the Southern Pacific, and there are no serious obstacles in the way of their getting it. With this road in their control the Vanderbilts would be able to dictate terms to all other lines, so far as through traffic between the Atlantic and Pacific is concerned. Gould is probably interested in this scheme and has his understanding with the Vanderbilts and Drexel, Morgan & Co. whereby his railroad interests in the West receive ample protection.

Nothing can be learned, either confirming or denying the report, except that Morgan recently bought a large block of Union Pacific stock for Vanderbilt's account.

Mexican Matters.

By Associated Press.
NEW ORLEANS, Aug. 29.—The Times-Democrat, City of Mexico special says heavy washouts are reported on the Southern railway.

President Diaz has decided on a firm economic policy in view of the stringency of the foreign money markets.

A duel with swords between editors has taken place and both were wounded.

The papers here say the Chilean Government claims damages from the Mexican Government for permitting the Esmeralda to coal at Acapulco.

Terminate Treaties.

By Associated Press.
WASHINGTON, Aug. 29.—The Department of State received official notice from the Government of Ecuador of its intention to terminate the treaty of friendship, commerce and navigation concluded with the United States on June 13, 1849, and the treaty of naturalization concluded on May 6, 1882. The reason for this action is Ecuador's desire to conclude new treaties more in conformity with those recently made with other powers.

Secretary proctor returned to Washington this afternoon.

Farmers Ruined by Fire.

By Associated Press.
FAULKTON (S. D.), Aug. 29.—All the northwestern part of Faulk county was burned over last night by fire, twenty miles wide and extending from Faulkton fifty miles northwest. Farmers are ruined. For a space of twenty miles no grass was left for stock. The damage cannot be estimated yet.

Notable Man Dead.

By Associated Press.
KROOK (Iowa), Aug. 29.—Erie J. Leach, Post Grand Old of the Independent Order of Odd Fellows, died at his house in this city this morning.

Valparaiso Fallen.

By Associated Press.
NEW YORK, Aug. 29.—The day for the Futurity race opened clear and cool. The track was improving hourly and there was a promise of a good going before the great two-year-old race was run, as it was drying rapidly under the influence of the sun.

When 9 o'clock came there was at least fifty horses of all kinds and descriptions on the track. Each candidate had his supporters, but Dagonet seemed to be the best liked. Mercy, Monarch and His Highness were discussed, and the latter's weight was always taken into consideration. It was the opinion of many that while Gideon had a splendid colt in the winner of the Champion stakes, there were such as thought it asking too much of a horse and that in the Futurity a top weight of 130 pounds will be too much for the youngster, and even with the great jockey McLaughlin in the saddle his supporters had to give way to the arguments of the followers of Dagonet. Next in favor were the entries of Marcus Daly, and Sir Matthews and Taumany are liked by many.

The weight of opinion, however, is in favor of Dagonet. If he does not win the race it will be because he is not good enough. No one knows just what McLewee's horses are capable of, and Yorkville Belle is a possibility, and a strong one, too. If the track remains soft, long-legged, big-gutted Mars may make his backers happy, for he is a speedy horse on a muddy track.

There will probably be at least twenty starters, and there may be added horses to the list of those already known.

His Highness wins the Futurity; Yorkville Belle comes in second and Dagonet third.

Misses' Misery.

By Associated Press.
MONTREAL, Aug. 29.—A terrible case was brought to light late last night. Dr. O'Connor was called into a house kept by Mrs. Galloway to attend a dying baby. He found three women in a destitute condition. On the bed were six infants, one of them dead, while four others were dying. The unfortunate women told a harrowing tale. They all were unemployed servants who had been betrayed and went to the house, where they were found, for refuge. The woman who was supposed to have looked after them skipped out, and the inmates were left in a destitute condition. All were at the point of starvation. The infants, with one exception, will die.

Ramie Experiment.

Special to the GAZETTE.
OAKLAND, Aug. 29.—The ramie fibre decorticated at Bakersfield recently was experimented with at the California cotton mills yesterday under the supervision of the State Superintendent of ramie culture. A bale of raw fibre was passed through the various mangling, breaking, cording and roving machines in the jute department, and the experiments proved that ramie could be successfully operated with. The fibre will now be made into cloth which will be placed on exhibition at the Mechanics' Fair.

An Arabian Tale.

By Cable and Associated Press.
ADEN, Aug. 29.—An Arab arrived here and tells a startling tale. According to his story Ahmed Ritsadi Pacha, a Turkish commander in Yemen, a principal division in Arabia, has utterly crushed out the revolt which broke out recently in that province. The Arab adds, the Turkish Pacha subsequently entered Sana, the capital city of Yemen, in a triumphal procession, having in his train fourteen camels, laden with hands cut from rebel chieftains of Yemen.

Lost in the Alps.

By Cable and Associated Press.
BERLIN, Aug. 28.—An Alpine traveler, named Maurice Petitgar, was killed by falling into a crevasse near Cornmayeur, Italy.

Judge Holst, of Berlin, started on the 15th inst. to ascend Mount Tergion in the Alps. He was accompanied by a guide, and as the Judge has not been seen since, he undoubtedly has perished.

A Shipmate.

By Cable and Associated Press.
ST. PETERSBURG, Aug. 28.—The recent Imperial ukase prohibiting the exportation of rye does not extend to ports of the White Sea, therefore large exports of that cereal are exported from that quarter.

Best Sugar Shipped.

NEW YORK, Aug. 29.—President Harrison and party arrived here at 10:30 o'clock this morning. He took the train at Jersey City for Cape May.

VALPARAISO FALLEN.

Capture Confirmed by Cable.

VICANA FLED TO A FLAGSHIP.

Balmaceda Fleeing to Buenos Ayres.

Leading Generals Killed and Army Routed.

Capture Confirmed.

By Cable and Associated Press.
LONDON, August 29.—Official dispatches received in Berlin and Paris confirm the announcement that the city of Valparaiso has been captured by the troops of the Congressional party of Chili. The orderly manner in which the Congressional forces occupied the strategic points and the quiet prevailing throughout Valparaiso has been so marked that the admirals in command of the foreign fleets in Chilean waters decided there was no need for any intervention on the part of the assembled fleets to protect the foreign population of Valparaiso.

The Globe this afternoon, commenting upon the capture of Valparaiso and the consequent downfall of Balmaceda, says the Congressional victory gives the Espiegle affair a much more serious complexion. Adding: "Had Balmaceda won no diplomatic dispute would have followed, but England will now have to explain what appears to be a flagrant breach of neutrality. England is answerable for her agents, and if the Congressional party claims damages, as it probably will, John Bull will find himself with another Alabama imbroglio of far less excusable character on his hands. If the case is as bad as it appears to be the soundest policy would be to frankly admit the blunder and come to some friendly arrangement about compensation, unless we have a good defence. A resort to international arbitration is strongly to be deprecated."

The Espiegle affair referred to by the Globe is the outcome of the action of the commander of H. M. S. Espiegle in carrying a million dollars in silver intrusted to him by Balmaceda to Montevideo for shipment to Europe. The silver was subsequently sent to Europe in payment for arms, ammunition and ships supplied to Balmaceda's government.

The Times and other papers have demanded a full investigation into the matter.

WASHINGTON, Aug. 29.—Up to noon to-day nothing in regard to yesterday's battle at Valparaiso was received at the headquarters of the Congressional party in this city. Envoys hardly expect any details of the fight by telegraph to-day. Party leaders at Iquique, they say, have many important matters to attend to and no doubt think the mere announcement of the result will answer for the present. The envoys expect more definite news, however, by to-morrow.

The insurgent leaders, it is thought, will immediately remove their headquarters from Iquique to Valparaiso, so as to be in direct communication with the army. Pedro Montt, the principal Congressional envoy at Washington, who has been out of the city for some time, returned to-day. He had not heard the news of the surrender until informed of it by Foster this morning. He was almost beside himself with joy.

Inquiry at the house of Senor Lazcano, the Chilean Minister, this morning elicited the sole response, "The Minister is not at home, and there is no one in the house to represent him."

New York, Aug. 29.—W. R. Grace received a dispatch this morning from his house in Valparaiso, confirming the report of a complete victory for the insurgents and the fall of Valparaiso. The firm is of the opinion that the result of the battle is equivalent to the overthrow of the Balmaceda Government.

The recently appointed Chilean Consul General at New York, Charles R. Elk, has always been a warm supporter of Balmaceda and is unprepared to believe his chief is defeated. In an interview he said: "To me, it hardly seems possible, much less probable, that President Balmaceda met with defeat, because he had every advantage in his favor, from the beginning. His army is greatly superior in number to that of the insurgents, and he also had practically an impregnable position. Of course this is mere conjecture on my part, because I am without particulars, but I believe if he has been defeated it was because

something happened for which he was not prepared at the outset. It has been said more or less discontent existed among his troops and a large number of them may probably have deserted at the critical moment. Should they have taken sides with the insurgents, his position would have been weakened, and of course that easy victory over him would have been the natural result. That is the only reason or explanation possible for me to offer for his defeat." "Do you think that this battle will end the war?" "I do not think so, unless President Balmaceda and his principal Lieutenants are now prisoners in the hands of the insurgents. If that proves to be the case the trouble will, I suppose, be ended, but if the President succeeded in reaching Santiago, where he has another large force of troops concentrated, the situation will be somewhat different." The Consul General states that Balmaceda will now concentrate his forces about Santiago and if he has prestige enough to recall the troops to his standard he will still have a larger army. At Santiago the rebel fleet will be of no value and the government would still have the advantage. He, since the 27th, received no advices from Santiago.

Chili Rebels Victorious.

By Associated Press.
NEW YORK, Aug. 29.—The Herald this morning devotes a page to Chilean news. Its Valparaiso dispatch of the 28th says Balmaceda's army was crushed at Vio Del Mar after five hours fighting, and scattered beyond all hope of re-organization. The insurgents took position on the hills and moved down the government forces, killing the leading Generals, Barbosa and Alserreca, and routing the troops. Five thousand were killed and wounded. President elect Vicana retreated aboard the German flagship and begged for protection which was granted, while President Balmaceda fled and is believed to be making his way to Buenos Ayres. Admirals of America, English, French and German fleets were requested by the Congressional leader to land forces in Valparaiso to look after the foreign interests and did so. The insurgents now occupy the city. They were greeted with utmost enthusiasm by the inhabitants.

WASHINGTON (D. C.), Aug. 29.—The Government has received notification from the United States Consul at Valparaiso of the battle of yesterday and the victory of the insurgents, also notified of the battle near Santiago, but as the wires from there to the coast are cut, Minister Egan has not been able to fully communicate with the Department.

Told of the Teller.

Special to the GAZETTE.
TACOMA (Wash.), Aug. 29.—A sensational story is out that Teller Albertson, who absconded with the funds of the Fidelity Trust company Bank and took \$100,000 in securities in addition to cash, it is said, he has notified the Trust Company that he would return the same providing his theft of the money would be overlooked. Campbell, attorney for the company, said the securities are in the company's vault.

Frost Was Light.

By Associated Press.
MINNEAPOLIS (Minn.), Aug. 29.—A Tribune special reports from 58 points in the Dakotas and Minnesota, which indicate in some places no damage resulted, while in others the damage does not run over ten per cent from the recent frosts. All the reports speak most enthusiastically about the yield, no estimate being below 18, and some run as high as 35 bushels to the acre. The average is about 25 bushels.

Assets Not Available.

By Associated Press.
LOUISVILLE, Aug. 29.—The Broker, Moore Paper Company and Moore, Brenaker & Co., grocers, have made assignments. Their liabilities are about \$250,000; assets, \$700,000. The trouble was the assets were not ready and available and the assignment was made as a matter of precaution.

Struck Water.

Special to the GAZETTE.
LOS ANGELES, Aug. 29.—A special from Gladstone to the Evening Express says workmen in the tunnel of the irrigating company in San Gabriel canyon struck a one-hundred-inch flow of water this morning, which is a very important addition to irrigation in the San Gabriel Valley.

TELEGRAPHIC BREVITIES.

The United States wooden cruiser Pensacola left Mare Island navy yard to-day. Her supposed destination is Honolulu.

A wreck occurred on the St. Louis & San Francisco Railroad near Philadelphia, in which four men were killed. No particulars.

The official estimate of damage by the recent cyclone on the Island of Martinique places the amount at ten millions of dollars. It is estimated that three hundred and seventy-eight people lost their lives.

Of Paramount Interest.

By Associated Press.
WASHINGTON, Aug. 29.—The unexpected turn of affairs in Chili is a subject of paramount interest at the State and Navy Departments to-day. Since the receipt of Consul McCreery's cablegram last night announcing the capture of Valparaiso by the Congressional forces, no further official news came from the scene of war. Admiral Brown's failure to report is believed to be due to the fact that he is very busy disposing the vessels and seamen of his squadron, so as to insure American property against damage and American residents surrendered in the city against violence. Then, too, it is believed he delays his report until events shall have so shaped themselves as to enable him to state the conclusion of the movements of occupation, and also until he feels he requires instructions from the Navy Department as to his future course.

Minister Lazcano called upon Acting Secretary Wharton this morning, as did a prominent lawyer of this city, who has been acting as attorney for the Balmaceda cause. The acting Secretary of State could not, of course, say anything respecting the confidential diplomatic communications. It cannot be known whether they added to the war news. It is not believed here that Balmaceda has been completely defeated, still it is to be expected the result of so pronounced a success as the capture of Valparaiso may be the admission to the Congressional party of that, always considerable number of men, who are attracted by success.

Also it is recalled that most of the military supplies for Balmaceda's forces reached the country through Valparaiso, and Balmaceda's small navy has lost its only fortified port, which may have a depressing effect upon the fortunes of his party. As long as Balmaceda remains in possession of Santiago, the capital of Chili, and until the Congressional party shall have set up a defacto government, one which our Minister reports is really the government of the country, the Department of State cannot have relations with the Congressional party and must continue to recognize Balmaceda as the President and Senor Lazcano as Minister of Chili.

Not In It.

By Associated Press.
NEW YORK, Aug. 29.—Notwithstanding the decision of Judge McAdams, given this morning, the Coney Island Jockey Club will not recognize Huron and he has been taken off the board. Huron's number will not be hoisted, but his jockey will weigh out and he will go to post.

Entered by the Court.

By Associated Press.
NEW YORK, Aug. 29.—Judge McAdams of the Superior Court granted a mandatory injunction requiring the Coney Island Jockey Club to enter Edward Carrigan's colt Huron in the contest for the Futurity stakes at Sheepshead Bay to-day.

BOARD OF TRADE.

An important meeting held to-day.

A special meeting of the State Board was held to-day. The following telegram was read and answered:

False Economy
Is practiced by many people, who buy inferior articles of food because cheaper than standard goods. Surely infants, entitled to the best food obtainable, it is a fact that the Gall Borden "Eagle" Brand Condensed Milk is the best infant food. Your grocer and druggist keep it.

Merit Wine.
We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklin's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund our purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merit. Wm. Finlinger druggist.

What Brandreth's Pills Do.
In Brandreth's Pills the true life medicine has been found, composed as they are of numerous vegetables so combined that each multiplies the virtues of the rest. They never can do any harm. Their action is always the same, no matter how long or in what doses they are taken. They purify the blood, they stimulate the liver, they invigorate digestion. They open the pores. They make the bowels do the work of the kidneys, thus giving those organs an oftentimes needed rest. One or two at night for a week will demonstrate their power and is generally sufficient to cure ordinary diseases.

A Cure for Sick Headache.
This distressing complaint is due to an inactive or sluggish liver with constipated bowels which deranges the stomach, and disturbs the nervous system, causes dizziness and an oppressive dull pain in the head, often so severe as to prevent all rest or sleep. One of Dr. Gunn's Improved Liver Pills will relieve you of all the pain and misery and a few more doses will correct the liver and stomach and regulate the bowels. Wait till you can swallow them easily taken, and mild and gentle in their action there is no medicine made that will so effectually cure sick headache. 25 cents a box, sold by S. J. Hodgkinson.

A Safe Investment.
In one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from our advertised druggists a bottle of Dr. King's New Discovery for Consumption. It is guaranteed to bring relief in every case, when used for any affection of Throat, Lungs or Chest, such as Consumption, Inflammation of Lungs, Bronchitis, Asthma, Whooping cough, croup, and etc. It is pleasant and agreeable to taste, perfectly safe, and can always be depended upon.

A Sure Cure for the Piles.
Itching Piles are known by moisture, like perspiration causing intense itching when warm. This form, as well as blood, bleeding and protruding, yield at once to Dr. Bosanko's Pile Remedy, which acts directly on the parts affected, absorbs the tumors, always itching and affects a permanent cure. Dr. Bosanko's Pile Remedy. Sold by S. J. Hodgkinson.

MASON VALLEY.

Its Water Supply, Number of Acres Under Cultivation, and Other Interesting Information.
Mason Valley gets its supply of water from the Walker river. The following table shows the number of ditches, when appropriated, number of inches in each ditch, miles long, and cost per mile.

The total cost of the water system on the Mason Ranch is \$76,750. Mr. Mason has expended about \$100,000 in fences and other improvements. In his tract are 18,000 acres, 11,000 of which are now irrigated, and of the 18,000 acres there are 5,000 of deep, rich, alluvial soil, equal in fertility to the richest bottom land of the Mississippi and Sacramento rivers.

THE SCHOOLS.
There are four school-houses in the vicinity of Mr. Mason's ranch that are in session from eight to ten months every year.

While assuming that the cattle, the cereals and alfalfa industries are staple, it would seem a natural conclusion that immensely profitable returns might be realized from the raising of potatoes, hops and various kinds of fruit. It is well known that no part of the United States questions that the Nevada potatoes are excelled by those of no other locality, and equalled by but few. Hops have been tried and the experiments have been in every way satisfactory. The orchards in this favored locality are not troubled with curled leaf, scale or vermin of any kind, and the planting of say 1,000 acres to apples, pears and prunes would be exceedingly profitable, and would be the beginning of a new and important industry in this State. The same condition of things may be applied to many other localities. There are great possibilities within this State; its climate, its soil, its irrigating facilities commend themselves to every investigator of the State's resources, and the showing the farmers of Mason Valley make can be repeated in every valley in this State.

ARCTIC VOLCANO.

Used for an Incubator by the Birds in the Ice Fields.

In the interest of science, Captain Hooper of the Government steamer Corwin has written a letter to Professor Davidson concerning volcanic action at Bogoslov Island. The substance of his letter is as follows:

The rock has changed very much since last reports. The connecting neck of land (between the old and new Bogoslov) has sunk, and also Sall Rock, and there are now two separate islands, with deep water between them. The new rock continues to steam and splutter. It is more of the nature of a geyser than a volcano. It has no real crater, neither does it discharge lava and cinders. Its exhalation is more like steam. We distinctly saw it. The stop of the island is seldom visible, being always enveloped in this cloud of steam and smoke. The highest point measured was 221 feet above the sea, although there is a peak that is much higher, as the smoke was blown away, exposing it to view for an instant.

Money in Circulation.

A well known authority says: The amount of money in circulation in 1860 was about \$435,000,000 and the amount per capita was \$13.85. In 1865 there were \$728,000,000 in circulation and the per capita amount was \$20.82. Twenty years later the circulation was over \$1,200,000,000 and the per capita was \$23.02, while on the 1st of January last the amount was nearly \$1,529,000,000 with \$24.10 as the per capita allowance, the highest in the history of the United States. Owing to shipments of gold to foreign countries there has been a decline since January 1st, 1891, not only in the per capita amount but in the total circulation. On August 1st, notwithstanding the outflow of gold, the amount was about \$1,600,000,000 and the amount per capita was \$23.37.

Baseball Proposition.

The Grass Valley, Cal., Tidings of the 26th inst. says: The Directors of the Nevada State Fair, to be held at Reno commencing September 21st, have written to Dan Morgan of this city inviting him to take a baseball nine to that city to play every day during the Fair for purses. Morgan will feel the pulse of the local talent on the proposition, and if the conditions are favorable will accept the invitation. He says he will take a first-class club, however, or drop the project.

Pine Work.

Swisher & Bender, the Virginia street photographers, have just finished a lot of panel pictures of Governor Colcord which speak well for their artistic taste. No better work can be done on the Coast than this firm is doing.

Tourists.

Whether on pleasure bent or business, should take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectually on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 50 cent and \$1 bottles by all leading druggists.

The Genoa Courier of yesterday says: The creamery building is completed and the machinery is being put in place as speedily as possible and it is expected that it will start up the coming week. This is an enterprise of which Carson Valley may feel proud. We are told that the cows from a number of dairies in Lake Valley will be brought down here and wintered, so that the milk may be sold at the creamery.

St. Mary's Academy.

Mt. St. Mary's Academy will open Monday, August 31st. Quite a large number of applications have been made for admittance for the ensuing year, and the prospects for a school year are very flattering indeed. Miss Harnett of San Francisco has been secured to take charge of the music department. She was formerly a pupil of the late Earl Formes, and is a teacher of experience and ability. The Sisters of St. Dominic, in charge of the institution, are zealous in their efforts to please, and pupils are assured of receiving the tenderest care, and their training, morally, physically and mentally will be thorough.

Procure It Before Leaving Home.

Dr. M. J. Davis is a prominent physician of Lewis, Cass county, Iowa, and has been actively engaged in the practice of medicine at that place for the past thirty-five years. On the 20th of last May, while in Des Moines, en route to Chicago, he was suddenly taken with an attack of diarrhoea. Having sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for the past seventeen years, and knowing its reliability, he procured a 25 cent bottle, two doses of which completely cured him. For sale by J. B. McCullough.

A Reno Boy in Luck.

The Julian, San Diego, Sentinel contains the following:

"A recent run of average rock from the Ruby mine, owned by W. D. Chambers and L. E. Lee, resulted in a clean-up of \$77 to the ton. The ledge shows well and the quality bespeaks a prosperous future for the mine."

As Mr. Lee is a Reno raised boy, the GAZETTE offers its congratulations, with a wish that his mine may prove a second Comstock.

A Globe Trotter.

J. S. Black, who is trying to circle the globe with a bicycle as an ostensible means of locomotion, arrived here yesterday without the bicycle, which broke down near Wadsworth and had to be sent to Sacramento for repairs. He left Cleveland, Ohio, on June 2, 1891, on a wager of \$4,000 to circle the globe in two years time. He is ahead of that point at this time, but the bicycle did not much of a figure in transporting him.
